Federal Unobligated or Apportionment: Amount apportioned to the state based on CMAQ distribution formula and Congressional appropriation. Northeastern Illinois is allocated 95.21% of the state apportionment; however the full apportionment is used for a programming mark. FFY 2014 includes the unobligated balance from prior years, with funds currently in Advanced Construction considered to be obligated. FFY 2015-2018 apportionments are estimates based upon the current apportionment. See calculation below. Source: FHWA FMIS database.

**Currently Programmed:** 

Net amounts programmed (withdrawn and obligated funds not included) on active and reinstated project phases. FFY 2014 includes balance amounts from prior years. Source: CMAQ database

Deferred Funds Not Programmed:

Deferred funds for project phases that have not demonstrated readiness for the reinstatement of funds. FFY 2014 includes funds deferred from prior years. Source: CMAQ database

Unprogrammed Balance:

For current year, unobligated less currently programmed, excluding deferred line items; for future years, apportionment less currently programmed. This balance represents the funds that are available to program as of the current date.

Unprogrammed Balance Minus Deferrals:

For current year, unobligated less currently programmed, including deferred line items; for future years, apportionment less currently programmed, including deferred line items.

Obligation Goal: Current FFY Obligations to Obligations Needed to Goals to obligate the apportioned amount plus a fraction of the unobligated balance to achieve a zero unobligated balance over four years.

Obligations (Federal Authorizations) through the "current as of" date. Projects in advanced construction are included as obligations. Source:

Obligation Goal less Current FFY Obligations to Date.
